Paul,

Having reviewed the supplied reference documents it appears to us the declaration you have requested Jon and I for signature relates back to prior amendments and appears to be corrective in nature. We have enclosed the signed document (PTO/SB/51S) as requested.

We do not understand the importance of the documents and while we will cooperate per our original agreement you need to outline reasons for the new claims, why they are being made and explain your supportive selected **specification** information so we can understand what we are signing and that we agree with it.

Sincerely,

J. Michael Teets
